Though accounting for only 5 percent of the world's population, Americans consume 26 percent of the world's energy. - UCLA Sustainability

GUESS WHAT?!???

EcoReno now has a web store!

While most of you locals will want to shop in person, be sure to let your family and friends around the country know they can help support your favorite green store too!

Eating Seasonally

By purchasing local foods in-season, you eliminate the environmental damage caused by shipping foods thousands of miles, your food dollar goes directly to the farmer, and your family will be able to enjoy the health benefits of eating fresh, unprocessed fruits and vegetables.

**Buying seasonal produce also provides an exciting opportunity to try new foods and to experiment with seasonal recipes. And it simply tastes better!
